Police Sniper 1 – Action Ready

“To Fire a Perfect Shot”

This course teaches all the fundamental skills required for basic police sniper operations, focusing on the mental and technical skills required to fire a perfect shot under ideal conditions. It is the foundation level on which all the others are built. If you can take only one sniper course before you are expected to perform on operations, this is the one. If you have taken other sniper courses, take this one to “actually learn to shoot” and to learn to do it consistently and accurately to the MilCun standard. Subjects include:

- Marksmanship Principles
 - Theory & Application
 - Use of support equipment
 - Fitting the rifle to the shooter
- The Optic Sight
 - Care & Maintenance
 - Adjusting the Optic Sight
- The Sniper Rifle
 - Care & Maintenance
 - Serviceability Check
- Sniper Ammunition
 - Description & Function
 - Interior Ballistics
 - Exterior Ballistics
- The Sniper Log Book
- Mental Marksmanship
